

Dear Colleague,

Thank you for 2 minutes out of your busy day to read over this short letter and to consider joining our Abortion Pill Reversal Team.

I am an American Board Certified Family Medicine physician practicing just north of Charlotte, NC and I had the privilege of participating in the first medical abortion reversal in 2006, resulting in the birth of a perfectly healthy little girl named Kaylie who is still doing very well at the age of 10. Our team consists of over 300 physicians that work together to make abortion reversal protocols available in 14 countries. Currently, we have 4 physicians in all of Canada that are ready to initiate the reversal protocols, and we need your help!

Abortion Pill Reversal is scientifically sound, medically safe, and proven to save lives.

1. **It is scientifically sound.** Mifepristone blocks the progesterone receptor and by adding more progesterone substrate, we can outcompete the Abortion Pill at the receptor to reverse its effects.
2. **Animal studies show effectiveness.** A Japanese study with mice showed that progesterone given to mice who had been give mifepristone had a reversal of its effects.
3. **Our 6 case studies published in the Annals of Pharmacotherapy in Dec 2012 showed a 67% reversal success rate** when progesterone is given within 72 hours of Mifepristone exposure without misoprostol, the second medication in medical abortions.
4. **Our article in Issues of Law and Medicine Spring 2017 shows that without progesterone reversal, Mifepristone alone has only about a 20% fetal survival rate** but with our protocol there is about 60-70% survival rate.
5. **To date we have over 200 healthy babies that have been born after using the protocol and over 150 more still pregnant** and succeeding with our protocol.

If you are interested, getting involved is quick and easy and will not take much of your time or resources. Here is all you need to do:

1. call [\(619\) 577-0997](tel:6195770997) or email apreversal@gmail.com. You can also call our emergency HOTLINE [\(877\) 558-0333](tel:8775580333), or visit www.abortionpillreversal.com
2. Receive a free Abortion Pill Reversal Kit from us or put together your own.
3. Be available as one of many reversal providers so that women that choose to reverse their medical abortions have access to the life-saving protocols.

Thank you for your time and consideration, please don't hesitate to call or email me directly any of your questions.

For Life,

Matthew Harrison, MD
